Our unique design features. Page 54

We are SEARAFT, Dutch Floating Engineers. We add happiness to boats and yachts. This is the journey to fulfill your maritime dreams; dip your toes in the water, take off on your jet ski or practise your golf swing with fish food. You may never want to leave the water again. Experience boundless maritime joy as our engineers craft extra space around your boat: a bespoke inflatable expansion, tailored to your desires. Or browse our collection of ready-made platforms for extended playtime at sea. We take great pride in being the world's number 1 supplier of add-on maritime joy. Create more space and more playtime in the water. Our ingeniously designed platforms are not only easy to install but also offer compact storage solutions. More space, more playtime, and more happiness: welcome to the SEARAFT life, where the waves are your playground and the water is an infinite canvas for your maritime dreams.

Life is short.
Add playtime.

excellent stability

With SEARAFT, stability takes on a whole new meaning. It isn't just about having a steady floating platform — it's about creating a safe space to anchor your spirit, recharge your batteries and find inner peace, even when life's waters get rough. Like the perfect symmetry between a boat's buoyancy and weight, our lives thrive on the equilibrium between work and leisure, giving and receiving, solitude and connection. SEARAFT supports this balance, providing a secure base where you can let the stresses of daily life drift away and focus on the essentials: reconnecting with nature, your loved ones and yourself.

ultimate comfort

Experience comfort like never before with SEARAFT. It's not just the plush feel of the soft, non-slip surface underfoot or how the innovative ballast system gracefully stabilises against the gentle sway of the sea — it's about the sense of ease and freedom the platform brings. Whether you're sunbathing, swimming or unwinding with friends and family, comfort means enjoying every moment to the fullest, without a worry in the world. This is exactly what SEARAFT delivers: a safe floating sanctuary thoughtfully designed to nurture relaxation and foster carefree moments of fun in the sun, no matter where your yacht takes you.

easy access

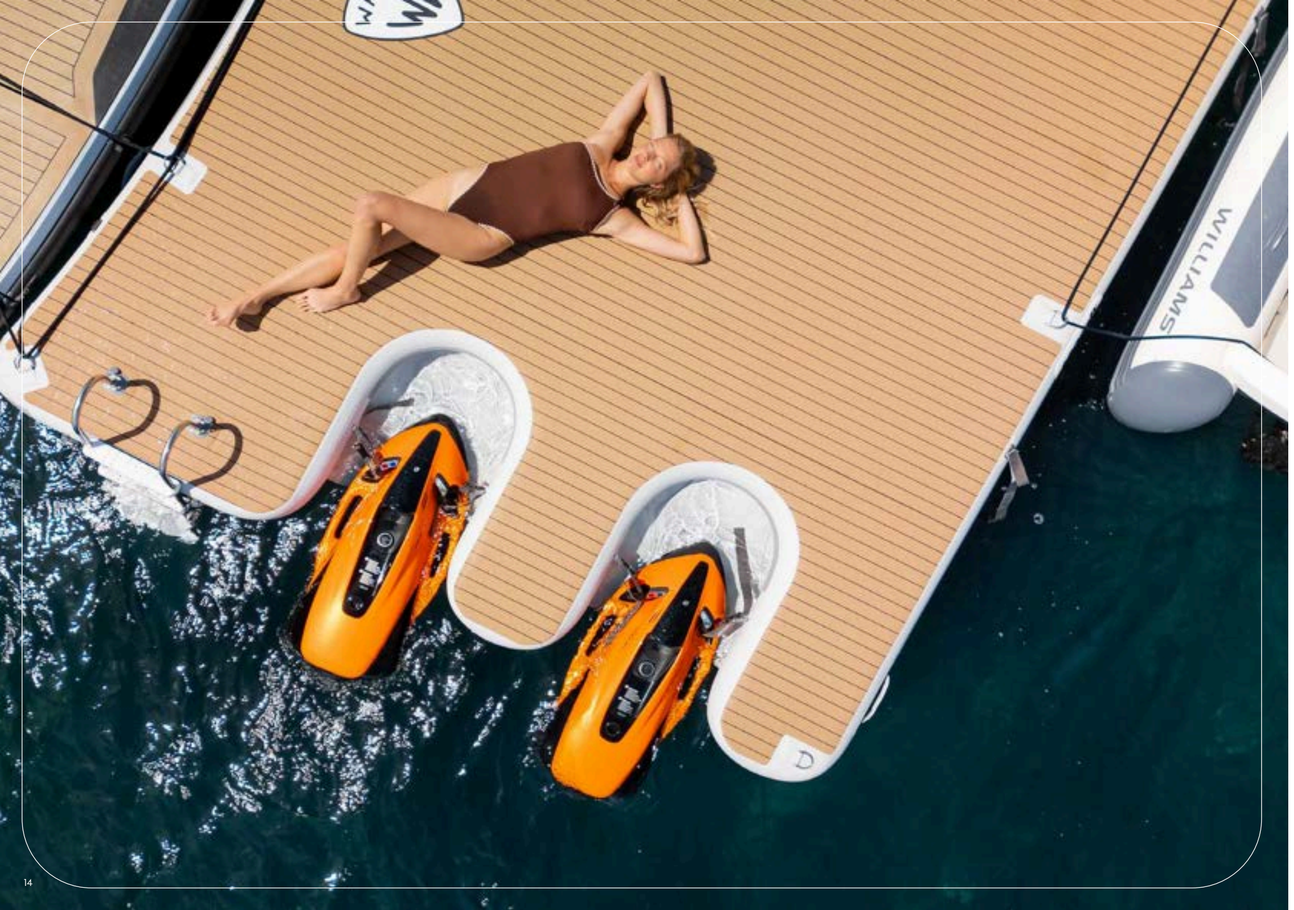

Our products do more than connect you to the ocean — they redefine the way you experience and interact with the water. Easy to deploy and retrieve, each platform becomes a natural extension of your yacht, providing a sturdy, hassle-free base from which to explore the ocean's treasures, ready at a moment's notice. Whether you're stepping out for a peaceful morning meditation, a sun-soaked afternoon on the water or a refreshing evening dip, SEARAFT ensures every activity is as effortless as the sea breeze.

"We recently added a large SEARAFT to our sailing yacht, and it has been a game changer! The quality is exceptional—sturdy and durable—making it perfect for our needs. The platform offers a spacious area for relaxation, ideal for swimming, paddleboarding, or simply enjoying a sunny day. Our guests love it, and the feedback has been overwhelmingly positive. "

Bosun Jamie - SY Xasteria

perfect docking

Docking jet skis or seabobs can be tricky, even for the most experienced riders — but with SEARAFT's expertly engineered docking systems, this process is easier than ever. Guaranteeing a perfect fit every time, our purpose-built solutions prioritise passenger and craft safety, ensuring smooth and secure docking tailored to your unique requirements.

water fun

SEARAFT is much more than just a floating platform; it's a catalyst for joy, ensuring your water experiences are filled with the carefree spirit of a day at sea. Designed for delight across all ages, our products serve as the perfect stage for exciting adventures, friendly gatherings and childlike wonder. From toddlers wading safely in shallow pools to grandparents watching over family fun, these platforms are built for laughter and leisure, no matter the generation. It's a base for toy boats, a launchpad for spontaneous cannonballs, and a space to simply sit back and savour life's little moments, where every day ends with smiles as wide as the horizon.

With SEARAFT, you can design not just any spot but the spot — your private oasis on the water, accessible anytime you desire. Forget the crowds and embrace a new kind of exclusive retreat, nestled close to the shore yet completely your own. Slow down, bask in the beauty of nature and discover a sense of quiet luxury wherever the sea meets the sky.

your own private island

"We recently added a modular setup to our motor yacht for docking jet skis, seabobs, and our tender, and it's been fantastic! The versatility makes it easy to organize our water toys, while safety remains a top priority. The platform provides a stable and secure area for getting on and off the jet skis, ensuring peace of mind for our guests. Plus, it allows for easy swimming access, enhancing our overall experience on the water.

We highly recommend this modular setup for any motor yacht owner looking to improve their water sports experience. It's a smart investment in safety and fun!"

MY NO MATTER WHAT - Crew.

ultimate happiness

Picture your perfect day on the water — fun in the sun, gourmet meals and sounds of happiness hopping across the waves. As the sky fades from sunset hues to starlit blues, glasses clink, conversations deepen, and dancing ensues — all enjoyed from the comfort of your bespoke SEARAFT platform. Here, the ultimate happiness isn't a fleeting moment but an enduring state, enriched by friendships and framed by endless azure seas.

23

the perfect entry

Designed for elegance and built for safety, our entryways are crafted not only to impress but to protect, ensuring that every transfer, whether from a chic restaurant boat or a sleek private tender, is smooth, secure and stylish.

easy maintainance

Engineered for quick assembly and effortless breakdown, our platforms let you focus on what matters most — relaxation and recreation. Transforming from compact to fully functional in under five minutes, setup and storage are a breeze, while a quick rinse leaves the platform dry in no time. It's also the ideal solution for maintenance jobs, offering crews a stable, efficient floating workspace for completing cleaning, painting and repair tasks directly from the water.

27

endless possibilities

The sea is vast, and so are the possibilities. With SEARAFT, there are no limits — we specialise in creating platforms that reflect your unique lifestyle on the water, no matter the scale or complexity. From intimate lounging spaces to larger-than-life floating structures, if you can dream it, we can build it. Whatever your vision, we have the expertise to bring it to life with uncompromising quality and personalised touches.

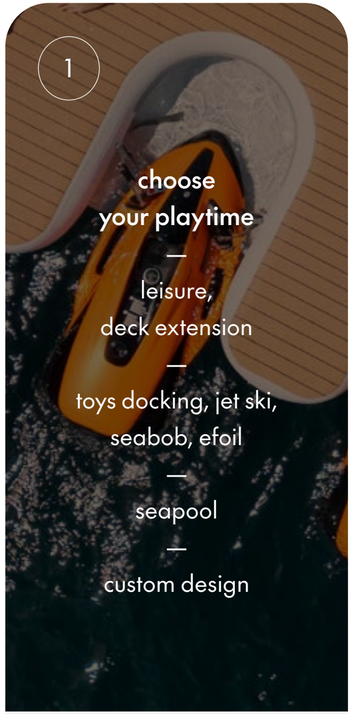

choosing the right platform

choose your playtime, size, surface & color and then your add-ons in four simple steps.

With a wide variety of platforms available, we've found that the following steps work exceptionally well in selecting the perfect platform(s) for your unique needs:

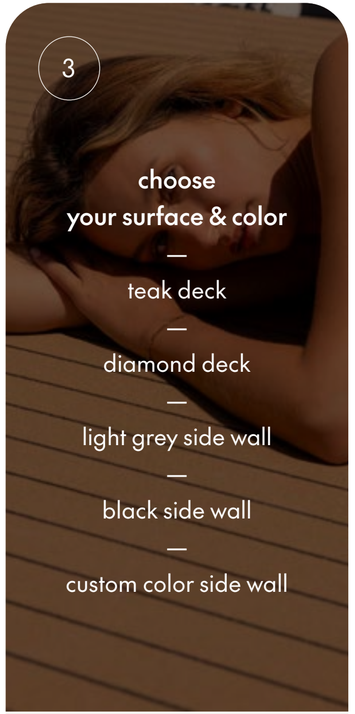

First choose your playtime, then how much more space that suit your vessel, followed by the surface you prefer, then finally add any add-ons you wish to enhance your experience.

choose your playtime

leisure decks, toy dockings, seapools or a custom configuration

Unleash your imagination on the open sea. Extend your deck for sun-soaked gatherings, or dock your water toys for effortless access to fun-filled days. The sea pool offers a safe, inviting space to float and refresh at your leisure. Whatever your mood, SEARAFT's versatile solutions allow you to craft the perfect marine experience, offering a world of excitement at your fingertips. Live the moments you'll talk about for years to come, all against the backdrop of the breathtaking blue seas.

2

choose your deck extension size

standard or custom platform

Everyone's deck requirements are different, and SEARAFT understands that. With various deck extension options available, you can tailor the space to suit your needs — whether you seek a cosy corner to enjoy the sunset or a larger space to entertain friends. Each size gives you the freedom to define your experience, transforming the water beneath you into an exclusive floating enclave where every moment is amplified by the beauty of your surroundings. The only question is: how big will your dream be?

custom size

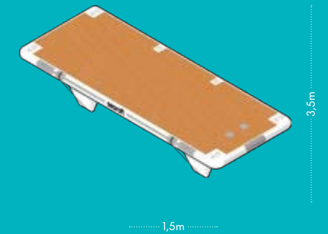

Design your dream SEARAFT custom sizes, shapes and features.

standard PL375

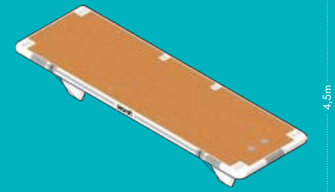

Storage dimension: 85×48×28cm (2'9×1'7×1'1")
Storage weight: 20.0 kg (44 lbs)

standard PL525

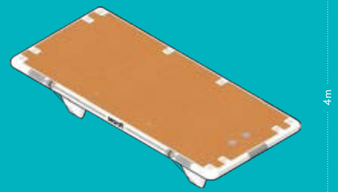

Storage dimension: 100×50×28cm (3'3×1'8×1'1")
Storage weight: 28.0 kg (61 lbs)

standard PL675

Storage dimension: 100×60×50cm (3'3×1'12×1'8")
Storage weight: 34.0 kg (74 lbs)

standard PL800

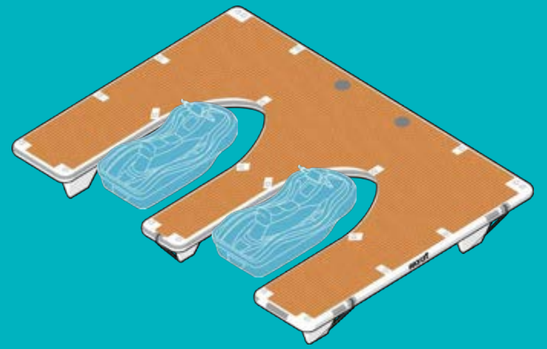

Storage dimension: 115×60×35cm (3'9×1'12×1'2")
Storage weight: 40.0 kg (88 lbs)

2

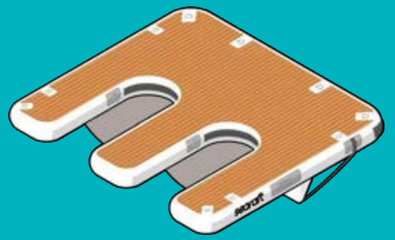

choose your toy docking size for your ultimate water adventures

Your adventures on the water are unique, and so is your choice of toys. With SEARAFT, the docking size is entirely up to you. Whether you need space for high-speed eFoils, state-of-the-art jet skis or the latest seabobs, choosing your docking size means shaping the way you enjoy life on the water.

2

choose your seapool size and add even more playtime

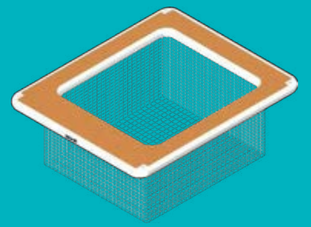

SEARAFT offers two standard sea pool sizes, but the real magic happens in the customisation. Imagine a space that's uniquely yours — where every swim, float or moment of relaxation reflects your personality and needs. From intimate wading spaces to larger pools for social gatherings and active pursuits, the choice is yours. It's your personal water park, where every dip and dive enriches the soul and strengthens the bonds between family and friends.

choose your surface & color

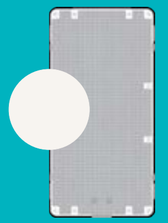

standard or custom platform sizing

Whether you're drawn to the warm, natural elegance of teak or the sophisticated, textured appeal of diamond decking, SEARAFT makes it easy to transform your platform into an expression of your personal style. Select your preferred flooring and pair it with standard light grey or black side walls for a classic look, or make a statement with custom colours that add a touch of personality. With SEARAFT, you have the freedom to create an aesthetic that's entirely your own — timeless or daring, yet always distinctively you.

Why settle for one-size-fits-all when your tailor-made SEARAFT platform can be anything you imagine? Every design starts with a dream — this is where yours takes shape. Personalise your platform with extras like comfortable seats, sturdy handlebars or custom logos. Want easier access to the water? Air steps and infinity stairs bring you closer to the waves. Worried about getting burnt? Add in umbrellas to offer respite from the sun. Need extra support? Include additional D-rings for safely securing watercraft. The customisation options are endless.

breaking boundaries

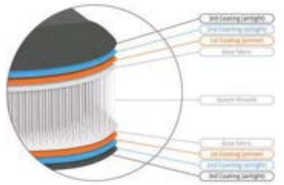

At SEARAFT, we believe in breaking boundaries and reimagining what's possible on water. Our custom modular solutions encourage you to dream big and design even bigger. The true beauty of these inflatable platforms lies in their flexibility. From transforming maintenance walkways into luxurious lounging decks to crafting a personal watersports marina, the ease of reconfiguration allows you to build your perfect waterfront world — one floating dream at a time.

think outside
the box

dutch floating engineers

At SEARAFT, we proudly combine 35 years of experience with Dutch ingenuity to create world-class inflatable solutions. Based in the Netherlands — home to Europe's finest yacht builders — we share a deep connection with the art of floating. Our expertise is trusted by superyacht builders globally, delivering tailor-made inflatables that flawlessly blend craftsmanship, innovation and convenience. With us, more space means more freedom to embrace the joys of life on water.

design features

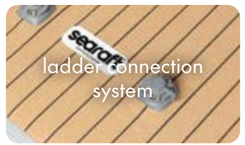

double wall fabric

SEARAFT DWF is a woven tread-linking system which produces an extremely strong connection between multiple layers for a lightweight, stable and ultra-durable fabric.

transport bag

Our transport bag is built tough, lightweight, and compact, making travel with your searaft easy and hassle-free.

minimal storage

Our searafts are designed to pack down efficiently, taking up minimal storage space.

vacuum storage

The searafts can be vacuum-packed to save maximum space, using our optional military pump for easy, compact storage.

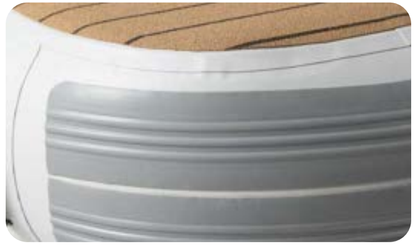

flexible teak or diamond finish

Our flexible teak or diamond finish anti-skid surface ensures secure footing with a premium, stylish look.

rubbing strake

The rubbing strakes provide added protection, shielding the searaft from abrasions and daily wear to keep it in top condition.

ballast bag

Our ballast bags ensure stability in the water, enhancing the raft's performance and keeping it secure even in choppy conditions.

EVA connection system

The attachment system provides an easy way to connect different setups, allowing you to securely attach the airsteps and enjoy your time on the water with easy acces on and of the searaft.

soft handles

Our handles are designed for easy grip and mobility, ensuring smooth maneuvering and handling of the SEARAFT.

ladder connection system

The ladder plugs allow for easy attachment of ladders and other optional accessories, enhancing the versatility of your SEARAFT.

stainless steel D-rings

Our d-rings provide secure attachment points for various accessories like multiple rafts, toys, tenders, yachts, and personal watercraft, making your setup versatile and convenient.

straps

Our straps are specifically designed for ladder attachment, lowering, and retrieving ballast bags, and connecting SEARAFTs using our optional airtoggle

unique serial number

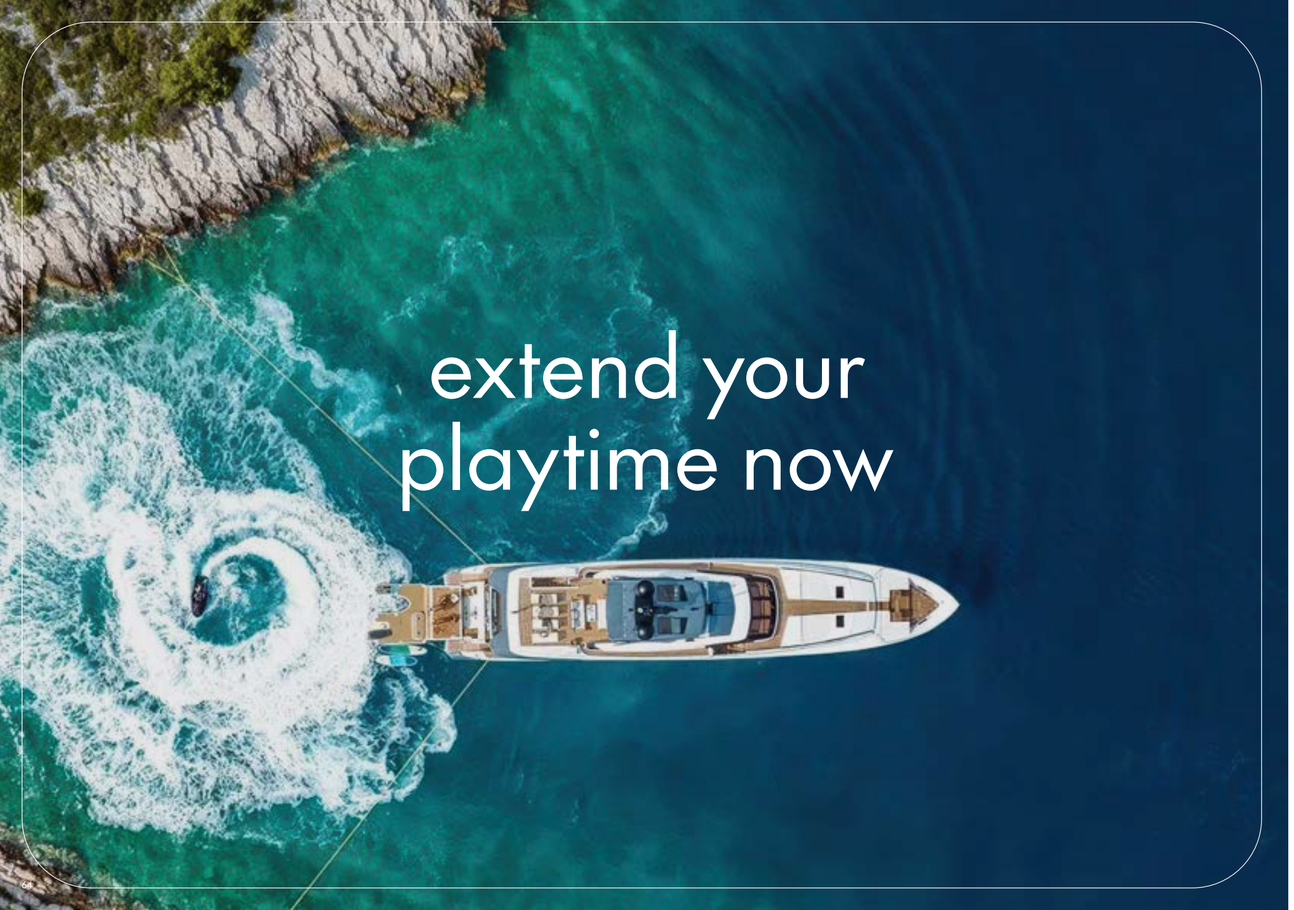

Our unique serial number serves as a custom product identification, ensuring a seamless process from production to delivery, providing peace of mind and transparency.

nfc chip

The NFC chip enables easy scanning if lost, allowing the finder to contact us using the unique serial number. Customers can also choose to link their own contact information for direct communication.

get in touch

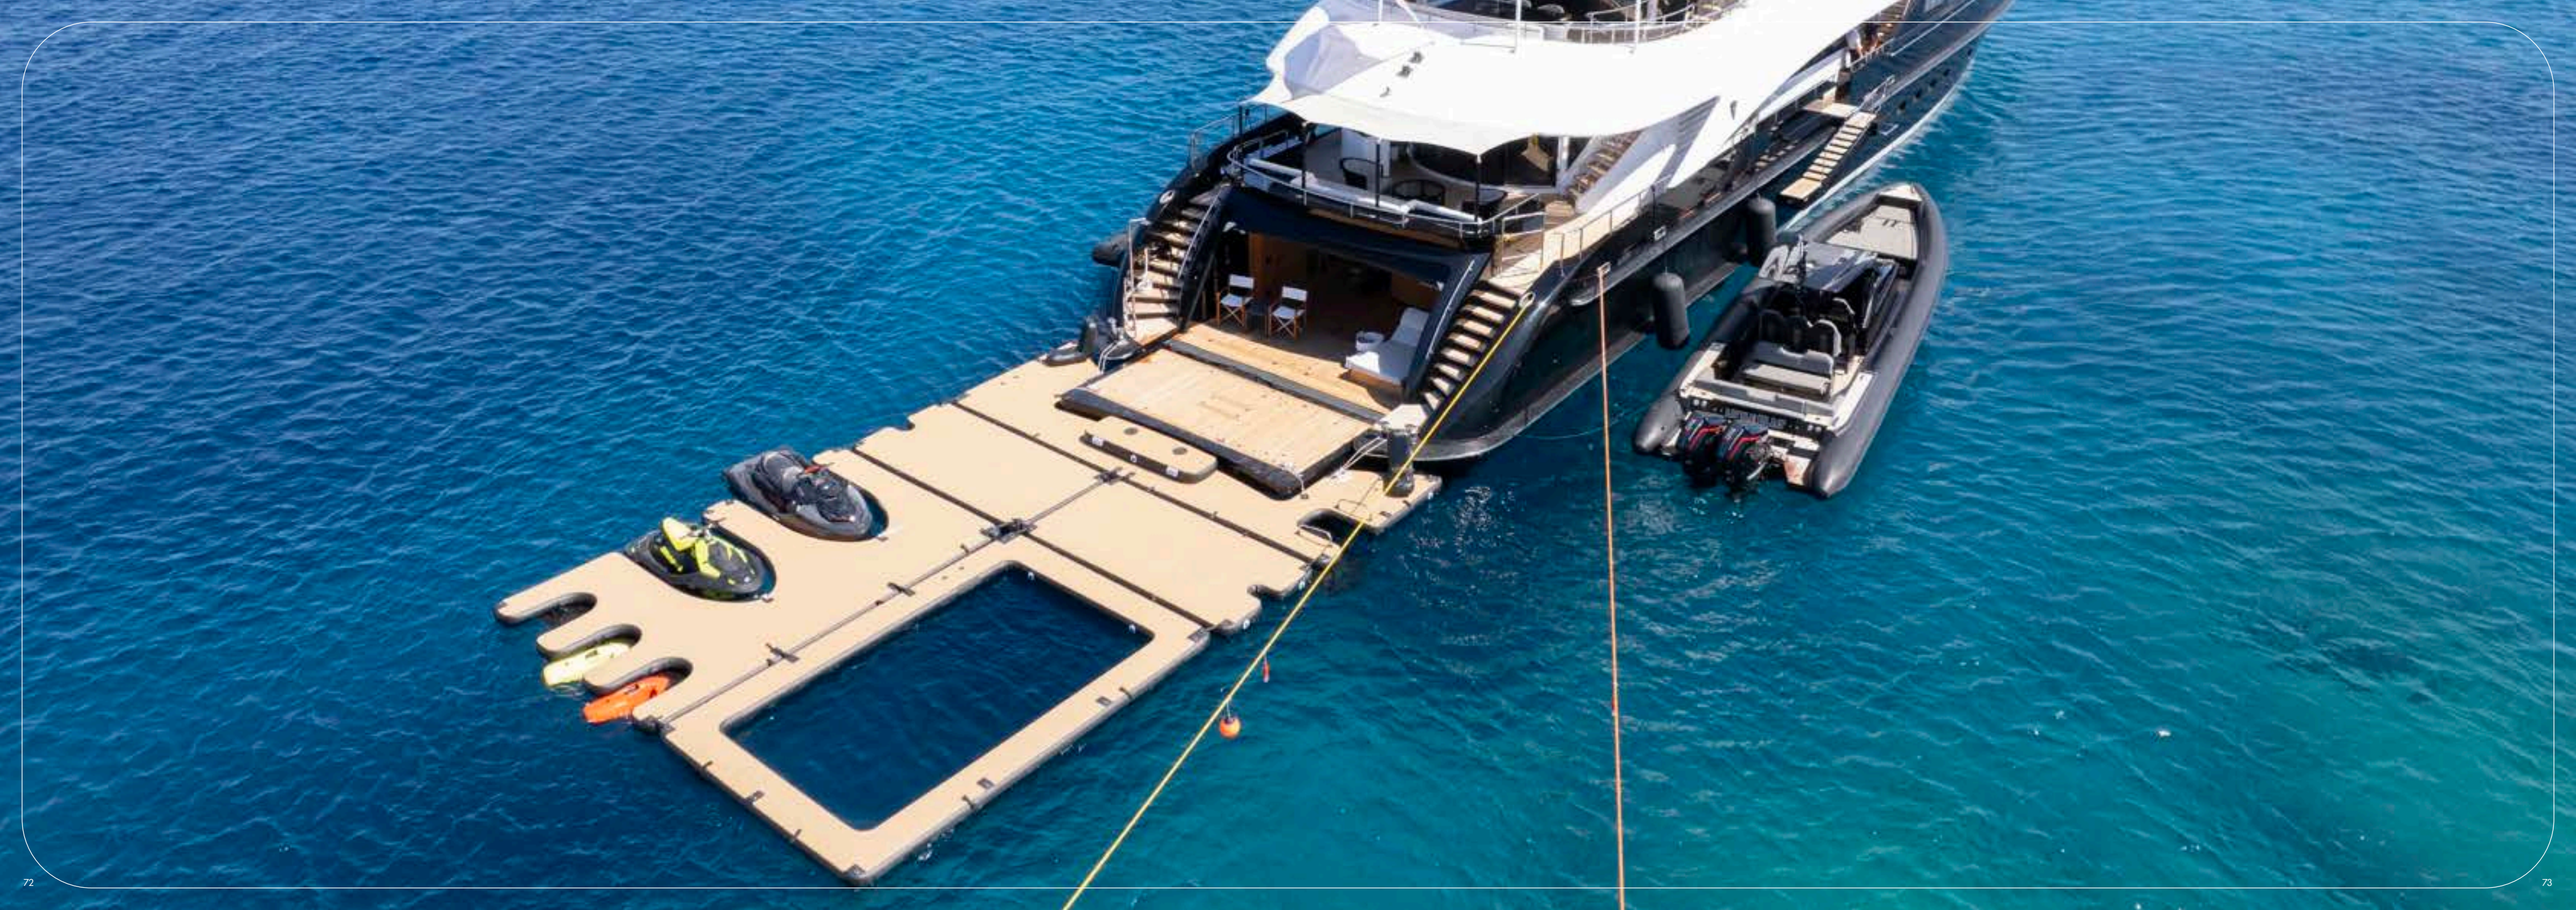

Every luxury yacht is unique and as such they demand bespoke solutions, so it is imperative that a platform is designed and customised according to specific use and the owners personal requirements. Share your ideas with us and we will turn them into reality!
